

### **1.Home.html:**

This is the Home Page of the Project, It is the center from where you can navigate to all other Elevations. This page has The 3-dimensional object of the house for which we are making different elevations. The 3d object is interactive in some ways, to open and close the door Click on the door, to open and close the window click on the window. This page has 3 links to it to go to Front view, Top View and Side view of the Dream House.

### **2.House.html:**

This is a Html page showing the front 2-dimensional front view of the 3-dimensional house which we showed before in the home. This is a static projection. you can navigate to other views by the navigation provided in the page.

### **3.Top view.html**

This is a Html page showing the front 2-dimensional Top view of the 3-dimensional house which we showed before in the home. This is a static projection. you can navigate to other views by the navigation provided in the page.

### **4.Side view.html**

This is a Html page showing the front 2-dimensional side view of the 3-dimensional house which we showed before in the home. This is a static projection. you can navigate to other views by the navigation provided in the page.
