

1.Home.html:

This is the Home Page of the Project, you have 2 options here,

- 1) Interactive cube
- 2) Multiple cubes

Click on any one of them to see what they will do.

2.interactive cube.html:

This page has an interactive cube with mouse events implemented on it. see the interaction of the cube by clicking and dragging the mouse from left to right or right to left.

3.multiple cubes.html

This is the highlight of this assignment, it has a cube 3D cube world in it you will see as soon as you enter this page.

If you want to reduce or increase the depth of the cube in the space, move the mouse from right corner to left corner. if you just want to play around with the cube.

Rotate the mouse near the cube, you will feel like you are inside the cube.
